

## MIL-DTL-15562G MILITARY SWITCHBOARD MATTING

The MIL-DTL-15562G specification for insulating switchboard matting and sheet floor covering is designed for use around electrical apparatus and circuits. This specification is approved for use by the Department of the Navy and is available for use by all departments and agencies of the Department of Defense. Dimex® MIL-DTL-15562G Switchboard Matting and sheet floor covering meets the additional property specifications for performance of Oxygen Bomb Aging, Sulfuric Acid, and Ultraviolet Light Exposure.

### TYPE III DIAMOND PLATE

#### MIL-DTL-15562 Type III: (3/16" thickness)

The Type III diamond plate surface is slip-resistant, fire-retardant, electrically insulating matting and is installed as a portable runner in front of equipment and on workbenches. This runner is manufactured in gray or green. The MIL-DTL-15562 Type III runner is used by the Department of Defense and in many industrial and commercial applications.

#### PROVEN INDUSTRIAL MATTING SOLUTIONS

When it comes to quality matting, Westlake Dimex is a name you can count on for dependable performance. Westlake Dimex Matting Products are the result of years of research, testing, and development. We lead the industry in product quality, availability, and customer support. No matter what your matting needs may be, Westlake Dimex can deliver the perfect solution.

## TYPE III DIAMOND PLATE SWITCHBOARD MATTING (MIL)

### TYPE III DIAMOND PLATE

Part No.	Color/Finish	Thickness	Width	Length	Weight
056-1944-C	Green	3/16"	36"	75'	230
